TMIP-M Overview

NAVY MEDICINE
World Class Care...Anytime, Anywhere

Theater Medical Information Program - Maritime Team

- On-Site Government Representative / TMIP-M Implementation Manager/Engineer
 - Alan Wells Email: alan.m.wells@navy.mil
- Functional Analyst / SSCA Team Lead
 - Kurt Wentzell Email: kurt.wentzell.ctr@navy.mil
 - Matt Stewart Email: matthew.m.stewart.ctr@navy.mil
- TMIP Helpdesk/System Administrator
 - Tony Pacella
 - Jamie Timmons
 - HMC Brandon Conder

- **System Locked out/User locked out of AHLTA-T and/or SAMS 9**
- **User is entering crewmember demographic data into AHLTA-T but data is **NOT** transferring over to SAMS 9 database (HL-7)**
- **Backups (TMIP-M, SAMS 9, permissions, etc.)**
- **TMIP-M Framework (TF) is not transmitting**
- **Hardware Failure need TMIP-M software (because I don't know where I put mine!)**

TMIP-M Maintenance Guide

TMIP Maintenance Procedures

Frequency	Description	Section of Document
Daily	Perform SAMS backup	1
Weekly	Perform TMIP backup	2
Weekly	Check TMIP Framework for unsent messages	3
Monthly	Export sent messages out of TMIP Framework (*)	4
Quarterly	Perform password maintenance	5
As Needed	Run STIG Correction tool	6

(*) The System is currently set to automatically export sent messages out of TMIP Framework however, you may need to perform these steps if your system has an issue.

PERFORM A SAMS BACKUP DAILY!

Section 1: Perform SAMS backup

Click Start → All Programs → SAMS → SAMS DB Utility

Enter SYS password

Ensure Backup radio button is selected.

Click Browse for PathFile Location.

Select Folder for Backup.

We recommend having a SAMS backup folder identified beforehand.

Click OK.

PASSWORD MAINTENANCE

- **Two types of Passwords: System Passwords and User Account P**

SYSTEM	User	Password	Date Changed	Change Due	NOTES
SAMS and ORACLE ACCOUNTS	sys	G00dpa\$\$word1234			Oracle super user account
	system	B@dpasswords&			Oracle limited admin account
	gems				Ahlta interface account. Good for 365 days, change only when required
	scadb				
	secadmin				Ahlta interface account. Good for 365 days, change only when required
	c2t_x				
	gemsa				
	fdb				
	frwkdb				
	sams_cr				TF interface account
	sams				Normally locked, change only when required
	bo				Business Objects interface account. Good for 365 days, change only when required
	tmipreports				Business Objects interface account. Good for 365 days, change only when required
	sspawar	TMip1234567890!!			
	aaaaaaaa				Default SAMS admin account
AHLTA ACCOUNTS	sysadmin	TMip1234567890!!			
	Jnavy	TMip1234567890!!			
Business Objects	gensup	wojmad640\$			Good for 365 days, change only when required

- **15- 26 Characters long, Upper case. Lower Case, 2 Numbers, 2 Special Characters (! _ \$), Can't use any character more than twice, Change Q 90 days.....BLAME NAVYCYBERFOR and the hacks for this!**

- **TMIP-M is an ever evolving process!**
- **DAP 19 will correct discrepancies in fielded SAMS 029-09.03.00 and 029-09.03.01 versions for AMMAL verification, fix errors in the recording of RH issue periods that span two calendar years, and update immunization tables. It will be added to the consolidated DAP and will include the following updates:**
 - **a. TR 101667 - (MM) There are discrepancies with AMMAL verification, including minor errors in the processing of controlled medicinals (Tylenol 3 marked as non-controlled item in “Received” status. Database modifications are necessary to ensure that controlled Medicinal Report (6710/5) is accurate.**
 - **b. TR 101470 - (TMIP RH) Members that are on Issue Periods that span two calendar years AND have an equal number of days in each year are continuing to show up as needing an Annual Report even if they have already been reported. Modifications are necessary to ensure the database recognizes that those individuals have already been reported.**
 - **c. TR 101686 - (TMIP RH) Sites are unable to create a 6470/10 for members who have transferred and have pending exposures that span 2 calendar years.**
 - **d. CP 101679 - (HS) Updated immunization tables - This increases fleet readiness by providing SAMS users with the most up-to-date immunization information.**
 - **e. TR 101874 - HL7 Job Stoppage**
- **Development will begin testing the DAP this week and then it will go to the test team for SQT. It may be ready for fielding by late June.**
